CHANTILLY, FRANCE

Hello!!!

This month's hot topic is West Nile Virus. Often, as vets, we are asked should horse owners vaccinate or not. There is no right or wrong answer and each case has to be considered individually. The vaccine is 'off license' in this country and only available from the States, but it can be imported under a special license. If you want to discuss the WNV vaccines, then please call the practice and ask to speak to Dr Emma Alsop, or Dr Alasdair Cameron.

If you have topics that you would like covering then please email them to [cape@mcveigh.co.za](mailto:cape@mcveigh.co.za) and we will try to accommodate you!

## **HORSE TALK.....**

Dr Dave Timpson is back from his annual leave and ripe and raring to go. Please call the practice if you would like to make an appointment with him. After nearly two and a half years, Dr Camilla Nock is returning home to the UK. She was a great member of the team and will be sadly missed, but an asset to wherever she ends up. Good Luck Camilla!!

To not be outdone by all the sporting achievements in the practice, Camilla ran the two oceans half marathon a few weeks back too, so a big well done for that!!

The Gastroscope machine is still available if any owners want to perform gastroscopy on their horses-please see last months newsletters.

Please follow the link <http://www.bakermcveigh.com/capenewsletters.html>. to read this months info sheet.
