Hello!!!

Following on from last month's ultrasound, this month's topic is 'synovial infection'. This info sheet will hopefully explain why joint infections are so serious and how we treat them.

If you have topics that you would like covering then please email them to cape@mcveigh.co.za and we will try to accommodate you!

HORSE TALK.....

Well, a belated merry Christmas to everyone!! And an early Happy New Year!

There has been no rest over the festive period at Baker and McVeigh. Work has carried on as normal with many elective and emergency surgeries going on, and the team have been flat out.

To our rescue, like a knight in shining armour, for January, comes the arrival of Dr John McVeigh. John will be working here throughout January. If you would like John to come and see your horse then please call the practice on 0215523450 to arrange an appointment.

Angela Knight, our fully qualified veterinary nurse (with a diploma no less!) recently attended CPD on pain management and anaesthesia. Angela is a vital member of the team in the hospital

and oversees the welfare of all the inpatients.

Just a short newsletter this month as I'm sure we all have mince pies to eat and wine to drink.

**MERRY CHRISTMAS AND A HAPPY
NEW YEAR TO ALL OUR VALUED
CLIENTS!!!**

Please follow the link <http://www.bakermcveigh.com/capenewsletters.html> to read the fifth of our monthly information sheets on synovial infections.
